Award-Winning Playwright Winston A. Wilson Unveils Epic Sci-Fi Trilogy "*Family Superior*" — Where Black Panther Meets Interstellar

ATLANTA, GA — Visionary storyteller and Imperator Entertainment founder Winston A. Wilson announces the forthcoming release of *Family Superior*, a groundbreaking science fiction trilogy that redefines the genre by centering an African-American family's journey across parallel dimensions during an apocalyptic invasion.

Family Superior follows Chief Alyson Watts and her children—Jalen, Satia, and Devin—as they discover their royal counterparts in a parallel dimension: Queen Tatana and Commander Kador. When a cosmic force known only as the Dark One threatens both worlds, these parallel families must unite, bridging dimensions and destinies to save existence itself.

"This is the story I needed to see growing up," says Wilson, whose acclaimed Hip Hop play Lyrics premiered at the Atlanta Black Theatre Festival. "It's not another lone hero's journey. It's about family—how love transcends dimensions, how sacrifice echoes across universes, and how ordinary people become extraordinary when they fight for each other."

A TRILOGY THAT BREAKS BOUNDARIES

Book One introduces readers to two families separated by dimensional barriers but united by blood, facing an enemy that feeds on fear and despair. As Chief Watts navigates Earth's militaristic response to invasion, Queen Tatana commands forces in a realm where ancient powers and advanced technology intertwine.

Books Two and Three (scheduled for 12-18 month intervals following the inaugural release) will expand the cosmic scope while maintaining intimate family dynamics, exploring themes of identity, destiny, and the power of unified purpose across multiple realities.

The trilogy blends the cultural richness and technological imagination of *Black Panther* with the dimensional complexity and emotional depth of *Interstellar*, creating a unique space in science fiction literature that appeals to:

- **Genre fans** seeking innovative sci-fi with cosmic stakes
- **Faith-based readers** drawn to themes of redemption, sacrifice, and love
- **Diverse audiences** hungry for authentic cultural representation in speculative fiction
- **Family-oriented readers** who want adventure that celebrates connection over isolation

"Family Superior positions itself at the intersection of commercial appeal and cultural significance," Wilson explains. "It's designed for the big screen while delivering the

depth that readers crave on the page."

FROM PAGE TO SCREEN

With film pitch materials already developed for major studios, *Family Superior* is built for franchise expansion. Wilson's background as a director and producer informs every scene, creating cinematic moments that leap off the page while maintaining literary sophistication.

The trilogy explores how parallel versions of the same family—one grounded in Earth's reality, one shaped by a dimension of ancient mysteries and cosmic forces—must overcome their differences to prevent universal extinction. It's *The Lion, The Witch and the Wardrobe* reimagined for the multiverse generation, with stakes that span dimensions and a heart that beats with authentic family love.
